

**Komori launches  
29" Sheetfed UV Inkjet Digital Printing System  
Impremia IS29s sales**

**— Enhanced compatibility with special substrates  
beyond the range of digital printing systems —**

Komori Corporation (Sumida-ku, Tokyo, Japan; Representative Director, President and CEO: Satoshi Mochida) launches the 29" Sheetfed UV Inkjet Digital Printing System Impremia IS29s sales.

## Impremia IS29s

### 29" Sheetfed UV Inkjet Digital Printing System

#### Professional digital printing production machine that delivers high quality, reliability, and stability

The Impremia IS29 professional-spec UV inkjet digital printing system has further evolved and upgraded as Impremia IS29s. In addition to the highly-received basic features—such as suitability with a wide range of printing stocks and sheet thicknesses, stable high print quality thanks to its superior tone reproduction and register accuracy, and instant curing, one-pass double-sided printing for immediate finishing— optional functions can be selected to further increase usability and create added value.

Particularly, we have strengthened compatibility with special substrates, beyond the range of ordinary digital printing systems. In addition, delivery unit can be equipped with tape inserter or interface enabling connection to post press machines.

The Impremia IS29s pushes the boundaries of digital printing, meeting the needs of not only commercial printing, where short runs of many different printed products and short turnarounds are required, but also those of package printing, with increased productivity and efficiency.

#### <Specifications>

Model		IS29s
Resolution	dpi	1,200 × 1,200
Printing speed	sph	3,000 (single-sided) 1,500 (double-sided)
Max. sheet size	mm	585 × 750
Max. printing area	mm	575 × 735 (single-sided) 575 × 730 (double-sided)
Sheet thickness range	mm	0.06 ~ 0.6 (single-sided) 0.06 ~ 0.45 (double-sided)

\* Performance and values may differ depending on specification. Komori reserves the right to change specifications for the purpose of product improvement.

To coincide with the start of sales, we will present the latest solutions of Komori group at the Komori Web Session\* in virtual.drupa, which will be held online from April 20 to 23.

Visitors are able to register at: <https://events.drupa.de/en/speaker/peter-minis>
